

Tips on Hosting an Event

1. **Use the FSD Website:** Make it easy for friends and family for to make a donation, have the FSD website open to our Donate section so that people can walk up to a computer and easily make a donation to your cause.
2. **Use the FSD PowerPoint Presentation:** We have made an easy to use and editable PowerPoint that you can personalize with your own pictures and that can guide you in your discussions about your time in the field and FSD. If you are interested in the PowerPoint just let us know by emailing us at alumni@fsdinternational.org, or calling the office.
3. **Request FSD Promotional Materials:** FSD has fliers that can be edited with your events specific details, presentations, listserv signup sheets, and even brochures about our programs, partnering with FSD, and donating. These materials are a great resource as often times your guests will want something to take with them.
4. **Read the How to Give a Presentation Tips:** These 10 great tips will help you ensure that your presentation makes a lasting impression on your audience (and they might help you feel more confident in presenting!).
5. **Have Fun:** Sharing your experience with others and inspiring other people to become involved as you have should be fun. Remember to enjoy yourself and share all of the moments that made an impact on you with your guests (and let us know about them too).
